

R/C MERT E-BOARD AGENDA: October 8, 2013

Operations:

- We are hoping to finalize the New Member Manual within the next few days.
- Adam would like to get food for future GMMs and is looking into that as a possibility.
- We are going to incorporate case studies in the next couple of GMM's. If anyone has any ideas for specific case studies please send them to Zach.

Training:

- Zach has finished the MCI write-up.
- Adam is going to contact Rural Metro to organize R/MMS ride-alongs.
- The Agency Claim Form is a form that allows us to get money back from the state if members take the EMT class at MCC. Zach is still working on this with Dave Leven.
- The number of members that are enrolled in the EMT class is not set. There may be some other people outside of MERT with a medical background taking the EMT class as well.
- The next CPR Class is going to be held on October 20th in UHS. Another CPR class will be determined by Zach in the near future.
- The training department is considering having 11 clearing calls for 802's. On the 11th call the 802 would act as if they were the 801.

Secretary:

- 27 new members have been accepted into our organization!
- Thank you to everyone who has helped with the application process, and also to everyone who volunteered to help.
