

R/C MERT E-BOARD AGENDA: March 7, 2013

Operations:

- MOM calendar is up and running! We have started taking pictures, and will continue to do so tonight, tomorrow, and when we return from spring break. All proceeds will be donated to relay for life.
- We will start coverage the Sunday we get back from spring break and vehicle 800 will be out of service until that time.
- During orientation, MERT will once again be participating in a skit for the incoming freshman.
- Disciplinary committee applications were sent out and the new committee has been selected.
- When Greta trains 801s she will also include a vehicle-training portion.
- EBoard will be held Thursdays at 9PM.

Training:

- The CPR instructor class will be held on March 27th
- The training department is in contact with companies to attain CPR mannequins.
- 802 applications are due March 24th

Secretary:

- The secretary committee will be meeting Wednesday March 20th in the MERT office.

Equipment:

- Blankets are in vehicle 800 next to the saline.
- Paper has been restocked.
- Joe has formulated a proposal to security to get new pagers.

PR:

- The 803 preceptor program is in the works. 802s we would like you to become very involved with this program.
- The MERT banquet will be held on April 18th
- We are cosponsoring the SUBS lecture on stem cell research that is being held on March 18. As per our cosponsorship, we need to have a minimum of 5 members to attend.

Webmaster/Scheduler:

- The new website design is being worked on.
- Rachael is working on a new MERT logo for the new website design.
- We will be putting Standby information in the mailboxes of various campus organizations in hopes of gaining interest in having MERT on standby at campus events.
- New weekend day shifts will start the weekend after spring break.
 - MERT only has 4 radios. Therefore, when the crew takes out the radio for the night weekend shifts, they must plug in the replacement batteries. The crew on the morning shift will put those charged batteries into the radios for use.
 - The Friday night crew must be back promptly at 8AM the next morning.
 - To take a weekend shift, you must remain on campus the entire day and be available to take a call at any time.
 - Please remember: it is MERT policy that members have a 0.0 BAC 24 hours before the start of a shift.
- 803 EMTs can sign up for standby shifts if the shifts do not have an 802 on the schedule 3 days in advance. The same goes for weekend day shifts.

QA/QI:

- 801s, please make sure you are reviewing charts.
