

R/C MERT E-BOARD AGENDA: October 29th, 2013

Operations:

- The new text system for day calls has been going great! If anybody experiences any problems or wishes to share their experience, please do so via an IR or speaking with Adam.
- The National Collegiate EMS Foundation puts on a conference every year that MERT attends. Conference will run from February 28th – March 2nd this year. EBoard is given first priority for spots but we also take general members.
- Matt has been a great Vehicle Officer so far! Greta and Matt have created a rough draft for a new vehicle exam. It is updated from the old version. They will be finalizing the test sometime soon.
- Matt and Greta are looking into doing a maneuverability aspect of the vehicle exam. The focus will be more on the vehicle than the SOPs because the SOPs are already on the 801 exams. It will cover specific light procedures, how to park, where to park, dangerous driving and more. It is possible that this will be a yearly exam, as stated in the vehicle SOPs.

Training:

- Phil has been looking at EMS websites and is interested in doing an EMS jeopardy game in GMM one day. Members will be split up into groups and compete through the jeopardy games. All levels of the organization would be represented on each team.
- Zach sent out an email about the CLI class. It is a prerequisite for the CIC that allows you to teach EMT classes. Many people have emailed Zach who are interested, but there are only 2 spots available. If you are still interested, please email Zach.

Secretary:

- R/C MERT will be creating new and improved committees that will be specific to certain tasks (Example: selection committee for applications, statistics report committee, banquet committee and more). Anybody with ideas on a committee should email Marie. A doodle poll will also be submitted to the membership for additional ideas.

Equipment:

- MERT cannot get blister packs of Aspirin anymore. Instead, R/C MERT will be using bottles of Aspirin. Joe will look into efficient and sanitary ways of storing the aspirin.
- The AED strap broke this week. Joe is looking for alternatives.

PR:

- The MERT dinner was very successful! Please keep attending.
- MERT is cosponsoring a CPR event with PKT. It will be in Hirst Lounge on November 5th at 7:30PM. This will be a PR event and Sara needs help setting up. If you are interested in helping out, please email Sara.
- Sara is meeting with all of the NMOPers Thursday – Sunday.

- Sara will be sending out a doodle on what movie people want to see for a movie bonding night in Gleason theatre.

Webmaster/Scheduler:

- Thanks to everybody who came to the web design meeting. Rachael has been working with all of the advice she was given and making changes.
- At next EBoard, Rachael will be taking head shots of all EBoard members, 801s and 802s to put on the website. She will send out an email reminding people before GMM.
- This past weekend, Rachael and Abhishek worked on the MERT video. Most of the video is finished and Devin has been working really hard to get it put together.
- Rachael has been compiling transition materials for whoever is going to be the next Webmaster. Anybody with questions should email Rachael.
- Rachael is creating a proposal for the 5K challenge to get the whole campus CPR certified. It does not specifically mention MERT but is written in the spirit of our organization.

QA/QI:

- Hannah sent out the first round of charts that are almost done by all of the 802s.
- There may not be enough charts for every 801 to get a second round- keep up the good work 801s!
- Andrew Tomich is going to send Hannah old statistics reports.
