

R/C MERT E-BOARD AGENDA: 11/11/14

Operations:

- Uniform Proposal – a proposal for new uniforms has been submitted!
 - A proposal for a new patch has also been submitted
 - We are not allowed to have our own MERT logo because we are so closely affiliated with the University, thus the removal of our logo and hopefully replacement with patches
 - Creative Services has offered to design us a patch similar to Public Safety's, assuming Public Safety will approve that for us
 - Stay tuned for more
- All 803s are now on emsCharts!
 - Follow Marie's instructions and change your password please
- Vehicle will be out of service starting from 08:00 on November 12th
- Constitution – Eric Quesada is bringing back the Constitution Committee
 - His new approach to getting people to update the Constitution is, "Do it." Thus, the updated Constitution will hopefully be completed soon

Training:

- NMOP Review and Exam – please come to the UHS Classroom at **19:30 tomorrow** (Wednesday, Nov. 12) and to the Gowen Room at **18:00 this Sunday** (Nov. 16) to help out with the NMOP review session and exam, respectively, if you're available!
- emsCharts Fully Updated! E-mail Tomich if you have issues with charting
- In-Service on Sunday – Henry Klos will be doing an in-service on Sunday at 17:00. There will be an FTO skill afterwards (KED)

Secretary:

- I hope you enjoyed these minutes.

Public Relations:

- Update on Defense Week – this was supposed to be our CPR training today at 19:00, but we got an e-mail yesterday saying PKT had "scheduling issues" with all of Defense Week, so it is being moved to sometime in March
- Scout Outreach **this Thursday** – wear your uniform and be at UHS at **18:30!**
- MERT Distillery Dinner will be happening sometime in the future!

Equipment:

- Cold Packs Have Arrived – new cold packs are in the bags
- New Radio Batteries! – hopefully these will work for a while
- 1-Inch Tape – unlike the old kind, this won't stain your clothes

Webmaster/Scheduler:

- All the in-service PowerPoints will go up on the website eventually

QA/QI:

- We have obtained a single AED sign (so people can easily visualize where the AED is when walking down a hallway). The school still has not received the actual AEDs yet, but small steps.
