

R/C MERT E-BOARD AGENDA: 02/03/15

Operations:

- Elections – are happening February 22nd during GMM. Past platforms will be put up on the website for your referral soon. Don't forget to e-mail yours to Greta!
- Medication Protocols – med protocols were written so we could get Narcan. These protocols are for all medications, not just Narcan, and have been approved
- Vehicle decals – the striping on the back will be done in non-reflective material instead of reflective material due to the “undulating” surface of the vehicle's rear
- EASV – a work in progress. We are now waiting for “some higher entity” to get back to us

Training:

- In-service – there will probably be an in-service this weekend before GMM, which is before Narcan training, which is before the Distillery dinner...
#MERTSunday
- Narcan – we have been approved document-wise to carry Narcan!

Secretary:

- Thanks for reading the minutes, dedicated MERT member!

Public Relations:

- Distillery Dinner – right after Narcan training this Sunday! There will hopefully be cars driving over. E-mail Sarah Jensen if you have any questions!
- Triathlon Guest Speaker – this Saturday from 2-3 pm in Sloan Auditorium. Please show your support!
- *Sirens* – we'll be watching the EMT comedy show *Sirens* at 6 pm some Sunday for MERT bonding. There will be good company and of course food!

Equipment:

- Thank You Card – the Boy Scout troop we worked with last semester sent us a thank you card and it's adorable
- Backboard – we got a backboard from RGH so the backboard hunt is over

Webmaster/Scheduler:

- Dropping shifts – REMINDER: if you drop a shift within 48 hours of when the shift begins, you must find your own replacement.

QA/QI:

- Measles Outbreak – if your patient has any symptoms of measles whatsoever, suspect measles, and tell Metro that we have a potential measles patient before they arrive on scene
