Subject: Need for victims for MCI training of Brighton Volunteer Ambulance members.

Brighton Volunteer Ambulance is conducting its first quarter Training and is looking for volunteers to attend and participate as victims. Each victim will be given a scripted injury and need to react with providers as they assess, treat and simulate transport from the scene. Victims will not have any advanced or intrusive procedures performed to them. They will be asked to act as if part of the scene and interact with EMS in accordance to their provided injury patterns and complaints. Those who attend will be given a letter of recognition for their volunteer work.

Requirements:

Those attending will be given rouge to match injury patterns and clothing which providers of the training can be cut away or removed. A change of clothes is recommended and wearing clothes which can get dirty should be worn. Volunteers should be prepared for the event to last 45 minutes and have fake blood and injuries applied to themselves and clothes. It is requested that participants stay for a debrief and offer observations.

Course Offerings

Sunday 2/25/2015 1030-1200
Saturday 1/31/2015 1030-1200
Saturday 1/31/2015 1530-1700
